

SUPPORT CAM MUSEUM

CAM is the only Italian museum of contemporary art working without any public funding. Our cultural policy aims to realize an international museum in which research and experimentation in art are considered beyond marketing strategies and where artists are not just selected on the basis of their market value; our management is therefore free from any conditioning and particularly focused on enriching our educational and cultural offer, preserving and renewing our collection, keeping on improving our services and proposing new projects for confrontation and meeting. For the above we kindly ask you to contribute by free donation if you are a private individual or by sponsoring the museum if you are a company.
